

Seven Fields Primary School-Newsletter

Dear Parent/Carer

What a sweltering week we have had but there is still much to do before the end of the academic year within the next four days.

Sports Day

Although the weather was hot it was still possible to hold our sports day yesterday. It was a fantastic turnout and the pupils all took part with determination. There were lots of smiley faces and great support from parents in both the morning and afternoon slots. These days are never easy to organise and we rely on parents to support their child with house colours and teachers to organise them into races. Thank you for coming and supporting all the children so positively, it was a lovely atmosphere.

Heat advice.

The DFE have issued guidance for schools who look after children with early years settings during the heatwave we are experiencing. We will encourage children playing outdoors to stay in the shade as much as possible, continue to use our ventilation system, keep your children hydrated, and avoid them completing vigorous physical activity. We ask that the children wear school PE kit consisting of white t-shirt and black/navy shorts and sun hats with wide brims. Please use sunscreen, and provide them with plenty of water. They will continue to have their water bottle at school. The DFE is not advising schools to close at this time.

Art Exhibition

Please take note of the opportunity to visit our art exhibition next Tuesday. (see message below)

Finally, stay safe and cool over the weekend everyone

Recently we had a school art week where children from classes across the school had the opportunity to practise and perfect their skills using a variety of different techniques. It was amazing to see so many talented artists across the school having the chance to show their ability. The children worked on and improved their pieces of work over the week and produced a final proud piece to be framed. To celebrate all of the children's hard work and talent, we will be hosting an art exhibition on the afternoon of Tuesday 19th July in the hall for parents and children to admire all of the great art pieces that the children worked on. There will also be the opportunity to purchase your child's framed piece for the price of £2.50 which is to cover the cost of the frame and art supplies. If you would like to purchase your child's artwork but are unable to attend, please message your child's teacher and let them know so that we can arrange this for you.

It would be lovely to see as many people as possible there to celebrate the talents that all of the children have shown.

Reports

You should by now have all received your child's end of year report. The report format should give you a good indication of how well your child is doing in a wide range of subjects and not just within the core subjects of English, Maths and Science. The reports will have a general comment from the teacher, indicate who your child's class teacher is next year and have a comment about their attitudes towards learning, towards school and towards others. In each case we are hoping that your child will meet the expected standard (on-track). The rest of the report is a detailed explanation of the key content that your child has studied this year. The curriculum content relates to all the subjects within the national curriculum for your child's chronological age and gives you an indication as to how well they are doing. You can use the table below to understand your child's progress in each objective. In this way we hope that you will help strengthen your child's weaknesses in their subject knowledge over the summer holidays. Do get in touch with your child's class teacher if you would like to discuss their report.

Assessment	Description
